# Creative Nature

## BOOKMARKS

### NATURE IN BLACK AND WHITE

At Creative Nature we have a wide variety of quality nature themed bookmarks. Our bookmarks come in 2 styles - the standard double-sided bookmarks and our unique range of bookmark greeting cards. The double sided bookmarks have fully rounded edges and are finished with an eyelet and quality thread - they measure 155mm x 55mm excluding packaging. Our greeting card bookmarks open up like cards so you can write a personal message and come with custom sized envelopes - when closed they also measure 155mm x 55mm, excluding packaging. Browse the great range and get in touch with any enquiries...
